

Worthing High School – Careers Programme 2023-2024

The educational aims of Worthing High School are based on the strong fundamental principle that the education for each student is of equal value.

Our shared vision is to challenge students at every opportunity to be curious, independent, resilient, kind and most importantly, academically inspired.

Our school seeks to achieve these aims through its provision for the academic, personal and social development of all our students.

We want them to have the knowledge and cultural capital they need to succeed in life and access the further education & training pathway of their choice.

Here at Worthing High School, it is part of our intention that pupils leave school with a careers education that has helped to raise aspirations, providing students the skills to achieve their full potential and provide them with the opportunity to experience different career pathways.

The Careers department ensures that all pupils, from Year 7 upwards, are kept fully up to date with the most recent careers information, so that they can make well informed decisions about their next steps after leaving us.

In order to fulfil this, we have a careers programme in place, which delivers employability and work-related learning skills from Years 7-11, as well as many other careers-linked activities which take place throughout the academic year.

Careers is an integrated part of the curriculum. All subject areas make reference to and discuss career opportunities specific to individual areas, as well as exploring the transferable, enabling skills which enable pupils to develop across all year groups.

The PSHE programme plays a key role in supporting the delivery of the Careers strategy.

Our Careers strategy is developed in line with the Gatsby benchmarks whilst also underpinned by the CDI Framework for Careers, Employability and Enterprise Education, 2020, and is quality assured termly through the Compass self-assessment tool in line with the good career's guidance produced by the Gatsby Foundation Benchmarks (2014)

Our Careers programme entitles each student to –

- **Be provided in years 7-11 with independent careers guidance. Such guidance could include local employers, self-employed businesses, alumni, training providers and motivational speaker visits and learning methodology.
This will be in various forms to include, mentoring, website access and personal advice.
Information provided will be linked to a range of education and training options, including apprenticeships and technical education**
- **All pupils in years 7-11 will have at least one employer encounter per year**
- **All students in Year 11 will have at least one 1:1 career guidance interview with a Level 6 Qualified Careers Adviser**

Key Objectives for KS3

- **Knowing themselves through personality traits & identifying skills**
- **Exploring career pathways**
- **Considering options for GCSEs and the link with the future options**

Key Objectives for KS4

- **Experiencing the work place**
- **CVs and Interview skills**
- **Preparing for Post-16 & knowing their goals, pathways and the requirements to reach those pathways**
